

SAFETY DATA SHEET VEGGISAN

.1. Product identifier		
roduct name	VEGGISAN	
roduct number	C014 EV	
nternal identification	Professional Hygiene	
FI	UFI: P604-XN1Y-H00C-MJMA	
.2. Relevant identified uses of	f the substance or mixture and uses advis	ed against
lentified uses	Effervescent chlorine tablets for disinfect catering.	tion of surfaces & utensils in food processing &
1.3. Details of the supplier of the safety data sheet		
upplier	UK Supplier: Evans Vanodine International plc Brierley Road, Walton Summit, Preston. UK. PR5 8AH Tel: 01772 322 200 e-mail: productcompliance@evansvanoo	EU Supplier: Evans Vanodine Europe 6-9 Trinity Street, Dublin 2. D02 EY47. Republic of Ireland. dine.co.uk
.4. Emergency telephone nun	ıber	
mergency telephone	1.30pm (Also available 24/7 from our we	0 - Mon to Thur. 8.30am to 4.30pm - Fri 8.30am to obsite www.evansvanodine.co.uk) For Technical - Mon to Thur 8.30am to 4.45pm - Fri 8.30am to
lational emergency telephone umber	 For Health Care Professionals only - For use in UK: Contact the National Poisons Information Service for further advice. For use in the Republic of Ireland: To report a poisoning incident contact The National Poisons Information Centre, Beaumont Hospital, Dublin (01-8092166). For use in Malta: Emergency services (Ambulance, Fire and Rescue, Police) : 112 	

Classification (SI 2019 No. 720)		
Physical hazards	Not Classified	
Health hazards	Eye Irrit. 2 - H319 STOT SE 3 - H335	
Environmental hazards	Aquatic Chronic 1 - H410	

2.2. Label elements

Hazard pictograms

Signal word	Warning
Hazard statements	H319 Causes serious eye irritation. H335 May cause respiratory irritation. H410 Very toxic to aquatic life with long lasting effects.
Precautionary statements	 P102 Keep out of reach of children. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P273 Avoid release to the environment. P301 IF SWALLOWED: P315 Get immediate medical advice/ attention. P337+P313 If eye irritation persists: Get medical advice/ attention. P403+P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/ container in accordance with local regulations.
Supplemental label information	EUH031 Contact with acids liberates toxic gas.
Contains	TROCLOSENE SODIUM (Sodium Dichloroisocyanurate)

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB. Including - Endocrine disrupting properties: None known.

SECTION 3: Composition/informa	tion on ingredients	
3.2. Mixtures		
TROCLOSENE SODIUM (Sodiu	n Dichloroisocyanurate)	30-60%
CAS number: 2893-78-9	EC number: 220-767-7	
M factor (Chronic) = 1		
Spec Conc Limits :- STOT SE 3 ((H335) >=10%, EUH031 >=10%	
Classification		
Ox. Sol. 2 - H272		
Acute Tox. 4 - H302		
Eye Irrit. 2 - H319		
STOT SE 3 - H335		
Aquatic Chronic 1 - H410		
ADIPIC ACID		20-25%
CAS number: 124-04-9	EC number: 204-673-3	
Classification		
Eye Irrit. 2 - H319		
SODIUM CARBONATE		3-5%
CAS number: 497-19-8	EC number: 207-838-8	
Classification		
Eye Irrit. 2 - H319		

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	Move affected person to fresh air at once. Get medical attention if any discomfort continues.	
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink. Get medical attention immediately.	
Skin contact	Wash with plenty of water.	
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention immediately. Continue to rinse.	
4.2. Most important symptoms	and effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	Irritation of nose, throat and airway.	
Ingestion	May cause stomach pain or vomiting.	
Skin contact	Prolonged skin contact may cause redness and irritation.	
Eye contact	May cause temporary eye irritation. Prolonged contact may cause redness and/or tearing.	
4.3. Indication of any immediate medical attention and special treatment needed		
Notes for the doctor	Treat symptomatically.	
SECTION 5: Firefighting meas	ures	
5.1. Extinguishing media		
Suitable extinguishing media	Oxidising - Supports combustion. Extinguish with the following media: Water spray, foam, dry powder or carbon dioxide.	
5.2. Special hazards arising fro	om the substance or mixture	
Specific hazards	Thermal decomposition or combustion products may include the following substances: Irritating gases or vapours. Oxidising. The product increases the risk of fire and may accelerate combustion.	
5.3. Advice for firefighters		
Special protective equipment for firefighters	Keep containers cool by spraying with water to reduce explosion risks. Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.	
SECTION 6: Accidental releas	e measures	
6.1. Personal precautions, pro	tective equipment and emergency procedures	
Personal precautions	Avoid contact with eyes. Avoid inhalation of dust.	
6.2. Environmental precautions	<u>š</u>	
Environmental precautions	Dangerous for the environment. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.	
6.3. Methods and material for containment and cleaning up		
Methods for cleaning up	Small Spillages: Flush away spillage with plenty of water. Large Spillages: Contain and absorb spillage with sand, earth or other non-combustible material. Collect and place in suitable waste disposal containers and seal securely.	
6.4. Reference to other section	IS	

Reference to other sections For personal protection, see Section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	
Usage precautions	Avoid contact with eyes. Avoid inhalation of dust. Do not mix with acid. Contact with acids liberates toxic gas.
7.2. Conditions for safe storag	e, including any incompatibilities
Storage precautions	Keep away from flammable and combustible materials. Keep in a cool place. Store in tightly- closed, original container in a dry, cool and well-ventilated place. Protect from light. Store away from the following materials: Acids. & Reducing agents.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
Usage description	See Product Information Sheet & Label for detailed use of this product.
SECTION 8: Exposure control	Is/Personal protection
8.1. Control parameters	
Occupational exposure limits	
SODIUM CARBONATE Long-term exposure limit (8-ho	our TMA: MEL 5 ma/m ³
WEL = Workplace Exposure L	
Ingredient comments	No exposure limits known for ingredient(s).
	SODIUM BICARBONATE (Sodium Hydrogen Carbonate) (CAS: 144-55-8)
Ingredient comments No exposure limits known for ingredient(s).	
8.2. Exposure controls	
Appropriate engineering controls	This product must not be handled in a confined space without adequate ventilation.
Eye/face protection	Eye protection recommended.
Hand protection	No specific hand protection noted, but protection for the skin is advisable to prevent removal of natural oils from skin.
Other skin and body protection	None required.
Respiratory protection	Respiratory protection not required.
SECTION 9: Physical and chemical properties	
9.1. Information on basic physical and chemical properties	
Appearance	Tablet.
Colour	White.
Odour	Faint Chlorine.
рН	pH (diluted solution): 5.0 - 6.0 @ 1%
Melting point	Not applicable.
Initial boiling point and range	Not applicable.
Flash point	Not applicable.

Summary	Not applicable.
Acute toxicity - inhalation	
Summary	Not applicable.
Skin corrosion/irritation	
Summary	Not applicable.
Serious eye damage/irritation	
Serious eye damage/irritation	Causes serious eye irritation.
Respiratory sensitisation	
Summary	Not applicable.
Skin sensitisation	
Summary	Not applicable.
Germ cell mutagenicity	
Summary	Not applicable.
Carcinogenicity	
Summary	Not applicable.
Reproductive toxicity	
Summary	Not applicable.
Specific target organ toxicity -	
STOT - single exposure	May cause respiratory irritation.
Specific target organ toxicity -	
Summary	Not applicable.
Aspiration hazard	
Summary	Not applicable.
·	
11.2 Information on other	None known.
Hazards 11.2.1 Endocrine	
disrupting properties	
SECTION 12: Ecological infor	mation
Ecotoxicity	Dangerous for the environment. The product contains a substance which is very toxic to
	aquatic organisms and which may cause long-term adverse effects in the aquatic
	environment. Potentially hazardous due to the chlorinated alkaline nature of the product.
12.1. Toxicity	
Toxicity	We have not carried out any Aquatic testing, therefore we have no Aquatic Toxicity Data
	specifically for this product. The Aquatic Toxicity Data, where provided by the raw material manufacturer for ingredients with aquatic toxicity, can be made available on request.
40.0 David 1	
12.2. Persistence and degrada	
Persistence and degradability	This product, at use dilutions, is readily broken down in biological effluent treatment plants.
12.3. Bioaccumulative potentia	al
Bioaccumulative potential	The product does not contain any substances expected to be bioaccumulating.
Partition coefficient	Not applicable.

12.4. Mobility in soil

12.4. MODIIITY IN SOII	
Mobility	Not known.
12.5. Results of PBT and vPvE	assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6 Endocrine disrupting properties	None known.
12.6. Other adverse effects	
Other adverse effects	Now section 12.7: None known.
SECTION 13: Disposal conside	erations
13.1. Waste treatment method	<u>s</u>
Disposal methods	Discharge used solutions to drain. Small amounts (less than 5 Litres) of unwanted product may be flushed with water to sewer. Larger volumes must be sent for disposal as special waste. Rinse out empty container with water and consign to normal waste.
SECTION 14: Transport inform	lation
General	As supplied, this product is consigned under the Limited Quantities provisions.
14.1. UN number	
UN No. (ADR/RID)	3077
UN No. (IMDG)	3077
UN No. (ICAO)	3077
14.2. UN proper shipping name	<u>e</u>
Proper shipping name (ADR/RID)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (sodium dichloroisocyanurate)
Proper shipping name (IMDG)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (sodium dichloroisocyanurate)
Proper shipping name (ICAO)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (sodium dichloroisocyanurate)
14.3. Transport hazard class(e	<u>s)</u>
ADR/RID class	Class 9: Environmentally Hazardous Substance
ADR/RID label	9
IMDG class	Class 9: Environmentally Hazardous Substance
ICAO class/division	Class 9: Environmentally Hazardous Substance
Transport labels	
14.4. Packing group	
ADR/RID packing group	III
IMDG packing group	III

ICAO packing group

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

Ш

14.6. Special precautions for user

EmS	F-A, S-F
ADR transport category	3
Tunnel restriction code	(-)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not relevant. for a packaged product. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation	Safety Data Sheet prepared in accordance with EU Regulation: "REACH Commission Regulation (EU) No 2020/878 (which amends Regulation (EC) No 2015/830, 453/2010 & 1907/2006)." and UK Regulation: "SI 2020 No. 1577 - The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.". The product is as classified under - EU GHS: CLP - "Regulation (EC) No 1272/2008
	classification, labelling & packaging of substances & mixtures." and UK GHS: "SI 2020 No. 1567 - The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained
	Use) (Amendment etc.) (EU Exit) Regulations 2020.".
	Ingredients are listed with classification under - EU GHS: CLP - "Regulation (EC) No
	1272/2008 classification, labelling & packaging of substances & mixtures." and UK GHS: "SI
	2020 No. 1567 - The Chemicals (Health and Safety) and Genetically Modified Organisms
	(Contained Use) (Amendment etc.) (EU Exit) Regulations 2020.".

15.2. Chemical safety assessment

No chemical safety assessment has been carried out as not applicable as this product is a mixture.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative. ATE: Acute Toxicity Estimate. REACH: The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577. GHS: Globally Harmonized System. Spec Conc Limits = Specific Concentration Limits.
Classification abbreviations and acronyms	Acute Tox. = Acute toxicity Aquatic Chronic = Hazardous to the aquatic environment (chronic) Eye Irrit. = Eye irritation Ox. Sol. = Oxidising solid STOT SE = Specific target organ toxicity-single exposure

Key literature references and sources for data	Material Safety Data Sheet, Miscellaneous manufacturers. CLP Class - Table 3.1 List of harmonised classification and labelling of hazardous substances. ECHA - C&L Inventory database.
Classification procedures according to SI 2019 No. 720	Calculation Method.
Revision comments	New Format Safety Data Sheet prepared in accordance with REACH Commission Regulation (EU) No 2020/878 (which amends Regulation (EC) No 453/2010 & 1907/2006) No change in Product Classification. (Changes made to sections 2,3,9,11,12,15+16)
Revision date	10/12/2022
Revision	13
SDS status	The Hazard Statements listed below in this Section No 16 relate to the Raw Materials (Ingredients) in the Product (as listed in Section 3) and NOT the product itself. For the Hazard Statements relating to this Product see Section 2.
Hazard statements in full	H272 May intensify fire; oxidiser. H302 Harmful if swallowed. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H410 Very toxic to aquatic life with long lasting effects.
